

Property Owners' Association of The Villages

"NEIGHBORS UNITED FOR THEIR COMMON GOOD" SINCE 1975

BULLETIN - JUNE 1997

PRESIDENT'S MESSAGE

Our 11th grandchild, Alissa, arrived at 7:15 P.M. on April 3rd and, judging by pictures, she is beautiful.

Such a joyous occasion can also be a sad one for grandparents who live miles away; but such are the sacrifices one endures when retiring to another state.

We are not with our grandchildren on those special occasions such as First Communion, Confirmation, broken limbs, first dance, proms, etc.

Although we try to compensate with cards and telephone calls, we have to accept the fact we will miss many special times due to distance and age.

It order to make these sacrifices meaningful, we hope to leave our children and grandchildren a legacy of our accomplishments during our retirement as well as those in our former lives.

We are often asked why we are so involved and how we can give so much time to civic, political, religious and service organizations.

It is easy when you believe, as we do, that we are here on this Earth to use our talents and time to make a difference.

If reading this gives you some pause to examine what and why you do what you do or don't do, then it will have been worthwhile to have exposed my personal and private thoughts and feelings.

If your spouse is still living and you have children, grandchildren or other family nearby, count your blessings. Life is really about our relationships, our interaction with others, and our contributions to our community.

Dorothy Hokr

SHOW ME A GOLFER WHO'S A GOOD LOSER AND I'LL SHOW YOU A MAN PLAYING WITH HIS BOSS.

A supplement to the Lady Lake Magazine

NOMINATING COMMITTEE ACTIVATED

Frank Renner, a retired attorney, has been appointed to chair the Nominating Committee and will be selecting his committee members in the near future.

The Nominating Committee is responsible for submitting a slate of candidates to fill vacancies on the Board of Directors to the October meeting. These candidates and any others nominated from the floor will constitute the ballot at the annual meeting in November.

Frank moved from Medford, MA to Lisbon Lane in Village Rio Grande four years ago.

He also presently serves as the President of the Village Action Committee.

Any member who is interested in standing for election as an officer or member of the board of directors may contact Frank at 750-0306.

QUOTE OF THE MONTH

Facts do not cease to exist just because they are ignored.

- Aldous Huxley

P.O.A. PROVIDES EXAMPLES

When the V.H.A. was formed, it followed our example in establishing \$6.00 as their annual membership dues.

And, in case you didn't notice, the color of "The Village Homeowners Assn. Voice" has been changed (?) from blue to the green of the P.O.A. Bulletin!

What next? Well, let's see, they might give consideration to allowing those in attendance at meetings to have a voice without having to submit questions in advance. We do.

By the way, perhaps we need to offer a disclaimer of the P.O.A. which appears at the bottom of the Villages' billboards. Must be some other group.

NOTICE OF P.O.A. MEETINGS

Board of Directors 1st Tuesday

June 3rd - 7:00 P.M.
July 1st - 7:00 P.M.
Charlie Chaplin Room

General Meeting 3rd Wednesday

June 18th - 7:00 P.M.
Paradise Recreation Center

Membership signup: 6:30 to 7:00 P.M.

Speakers - County Commissioners:
Welton Cadwell, Lake County
Benny Strickland, Sumter County

50 - 50 Drawing

Refreshments are served during the social period following the meeting.

P.O.A. MEETINGS ARE OPEN TO ALL RESIDENTS OF THE VILLAGES.

COMMISSIONERS TO APPEAR AT THE JUNE 16TH P.O.A. MEETING

Welton Cadwell and Benny Strickland, the commissioners who represent the districts of our respective counties of Lake and Sumter, will speak at our June 16th meeting in Paradise Center.

It is important for the residents of each county to know the commissioner who represents them.

Come to the meeting prepared to ask questions or state your needs.

PAUL LUGE NEW P.O.A. DIRECTOR

Paul Luge has accepted appointment as a member of the P.O.A. Board of Directors effective in May. He will serve until the end of the year after which he may stand for election to complete the one year remainder of the original term.

He replaces Frank Swenton who resigned due to ill health. We regret the loss of Frank as a member of our team. He will be missed.

Please turn to page eight for a profile of our new Director.

BUMPER STICKER OF THE MONTH

When I get old, I'm going to move up North and drive slow in the fast lane.

WHAT IS A DAD?

A dad is a person who's loving and kind, And often he knows what you have on your mind. He's someone who listens, suggests and defends. A dad can be one of your very best friends. He's proud of your triumphs but when things go wrong, A dad can be patient and helpful and strong. In all that you do a dad's love plays a part. There's always a place for him deep in your heart - And each year that passes you're even more glad, More grateful and proud just to call him your dad!

HAPPY FATHER'S DAY!

A Warm Welcome Awaits You At

GONE BUT NOT FORGOTTEN

BOTS season always brings to mind Cricket and Janet Jordan for it was the twins who started the so successful annual Battle of the Sexes.

For nearly 10 years, they enriched our lives in the Recreation Department as its activities were being developed for our benefit. They lived among us and were very much a part of our daily lives.

Then one day a chance remark was taken out of context and before you could say "Jack Robinson" they were gone. Word spread quickly but there was not sufficient time for residents to marshal a successful defense on their behalf, but they tried.

Some residents may still be in touch with them and could provide an update on their whereabouts which we could publish for those of us who still miss them and wish them well.

THE STARS AND STRIPES FOREVER

Everyone knows John Philip Sousa wrote America's favorite patriotic march. It was introduced 100 years ago to an overwhelming response which it enjoys yet today.

As recently as November 1985, Congress easily passed a bill to make it America's National March.

Sousa's intention was that the three themes of the march would represent different parts of the United States. The main melody is the North, the South is symbolized by the piccolo obbligato and the bold West by the trombone counter melody.

Did you know Sousa also wrote the following words to the march which he used as the finale to a patriotic pageant in 1898? The first 12 lines are to be sung with the main melody and the last nine lines with the piccolo part.

Let martial note in triumph float
And liberty extend its mighty hand;
A flag appears 'mid thunderous cheers,
The banner of the Western land.
The emblem of the brave and true
Its folds protect no tyrant crew;
The red and white and starry blue
Is freedom's shield and hope.
Other nations may deem their flags the best
And cheer them with fervid elation
But the flag of the North and South and West
Is the flag of flags, the flag of Freedom's nation.

Hurrah for the flag of the free!
May it wave as our standard forever,
The gem of the land and the seas,
The banner of the right.
Let despots remember the day
When our fathers with mighty endeavor
Proclaimed as they marched to the fray
That by their might and by their right
It waves forever.

(Taken from an article in the May issue of the Reader's Digest entitled "This Tune Makes You Want to Stand" -- from Old Farmers Almanac by Victoria Doudera)

Community Development District meetings are, by law, open to the public. A schedule can be obtained by calling 753-4508.

Residents are encouraged to attend those meetings where decisions are made which affect their district.

IT WILL SHOW IN YOUR FACE

You don't have to tell how you live each day.
You don't have to say if you work or play.
There's a tried and true barometer right in its place.
However you live, my friend, it will show in your face.

The false, the deceit that you hear in your heart
Won't stay down inside where it first got its start.
For sins and blood are a thin veil of lace.
What you carry in your heart will show in your face.

If you've gambled and won in the great game of life,
And feel you have conquered the sorry and strife,
Played the game square and stand on first base,
You won't have to tell it, it will show in your face.

Then, if you dissipate nights 'til day is most nigh,
There's only one teller, and one that won't lie.
Since your facial barometer is right in its place,
However you live it will show in your face

Well, if your life is unselfish and for others you live
For not what you can get, but for what you can give;
And if you live close to God, in His infinite grace,
You won't have to tell it, it will show in your face.

DO YOU REMEMBER?

One of the rites of spring in the days before central heating was taking down the heating stove. Removal of the stovepipe left a gaping, sooty hole.

Housewives with a decorative eye chose round, oval, rectangular or diamond shaped flue covers of varying sizes to turn these holes into more pleasing sights.

These decorative covers were made using a colorful lithograph print. A chain for hanging was attached to the narrow metal frame.

You may recall seeing these in the home of grandparents. Perhaps you know someone who hung onto them as keepsakes and uses one or more of them to decorate a wall today. Or perhaps the only ones you have ever seen were those on loan to some museum.

G: I WANT TO BE A GOLFER IN THE WORSE WAY, CADDY.

C: STOP NOW, YOU'RE WAY AHEAD.

REPORTS FROM OFFICIALS OF LAKE AND SUMTER

AN UPDATE ON TOWN PROJECTS FROM LADY LAKE COMMISSIONER VIRGINIA "GINNY" WARD

With space found for the three toilets needed, the Commission has approved the plans for the **new Town Hall and Police Complex** and they can be sent out for bids.

The Commission also has approved the **repaving of Avenida and rejuvenating** of the surfaces of Rio Grande and Del Mar streets.

The long sought after **paving of old Dixie Highway** was begun in early May! The road is closed to all but resident traffic until completion of the project which is scheduled for November.

The first step in Chief Ed Nathanson's goal toward **reorganization of the Lady Lake Police Department** has begun with Joe Fazio vacating his rank of Sergeant and accepting assignment as the Administrative Officer.

The Commission fully supports the chief in his quest "to be the best police department."

The **contest is over!** The connector road between Highway 27/441 and C-25 will become **Fennell Boulevard** and that part of C-25 which is within the town limits will become **Teague Trail**. I am pleased to report the contest drew many entries and reflects the interest our residents have in their town.

Government sometimes moves much slower than you or I would like; but I'd like you to know the Commission does its best to keep projects moving to completion for the betterment of Lady Lake.

Anyone who has questions on issues concerning your town government may call me at **750-0955**.

COMMENTS FROM LAKE COUNTY COMMISSIONER WELTON CADWELL

Have you visited a library lately? There are eight libraries in Lake County, and five of them (Lady Lake, Clermont, Mt. Dora, Tavares and Umatilla) are currently part of the County Library System.

If you live in Lake County, you can get a card at any one of the five and use it at all of them - no charge! Because they are all linked by computer and courier, the resources of all five of them are available to you.

The Commission is very pleased with the progress that has been made in our library services to the community in the past four years.

Wendy Breeden, our Library Services Coordinator, has implemented the computerization and other programs, and she has done a wonderful job.

Wendy also has had the task, specified in our Comprehensive Plan, to submit a report which analyzes and identifies facility needs for the Lake County Library System and which sets priorities and dates for implementation.

She has developed this document which she will present to the Lady Lake Town Commission on **June 16 at 7:00 PM** at the **Lady Lake Town Hall** on West Guava Street.

This meeting is open to the public; and, if you want a peek at what our libraries will be in the 21st century, feel free to attend.

COMMENTS FROM SUMTER COUNTY COMMISSIONER BENNIE STRICKLAND

The Villages area has become the fastest growing segment of Sumter County. The Public Services Division statistics indicate approximately 80 building permits were issued in April for structures valued between \$36,341 and \$179,922. A total of 2,452 building permits were issued for 1991-1996. The county has but one full time building inspector assigned to the Villages area with others assigned as needed.

It is anticipated two full time building inspectors will be needed in the future to keep pace with construction in the area. The general trend has been for issuance of an increasing number of building permits each month. Another trend being observed is the request for building permits to construct commercial buildings. Currently, one professional building and two medical centers are underway.

The area which was nicknamed "Little Sumter" several years ago and which was characterized by rolling hills dotted with large live oak and miles of fence row containing livestock is undergoing transformation into a residential community.

Sumter County maintains a service center at the Villages Government Building on Highway C-466. Several elected officials, including the Sheriff, Property Appraiser, Tax Collector, and Supervisor of Elections keep office hours at the center. The Veterans Service Officer and other branches of county government send representatives to the service center. A toll free number, **1-800-793-0201**, can be used by Village residents for other county services available at the County Courthouse in Bushnell.

DISTRICT 11 STATE SENATOR ANNA COWIN REMARKS ON FIRST SESSION

The whirlwind of the legislative session has ended yet the activity still continues as legislators, including this freshman, fully grasp the changes in laws made during those 60 days.

Thanks to outstanding leadership in both houses, a highly successful session was completed on time, with **no new taxes**. The promised goals of addressing priorities of education, crime and job creation were met. \$12.5 billion went to education initiatives. \$2.8 billion went to criminal justice and tax incentives were created to assist businesses in creating new jobs for Floridians. The \$42.4 billion budget and the nearly 300 new laws went to the Governor for his approval.

As I look back on the days preceding the session and the two months of lawmaking, I am amazed any laws passed at all! Fortunately, the process of an idea becoming law is complicated and straight with many safeguards. I saw many bills filed which were just plain bad legislation. But an extensive committee review process and amendment procedure "loves those bills to death" and even makes mediocre ideas good ones.

For me, it was a full circle learning experience. Excessively optimistic at first, I quickly realized even good ideas didn't move very fast or far if they were not in the original goal plan of the legislature.

ER COUNTIES

ALTERNATIVE THERAPIES: Challenging the Mainstream

However, the process allowed legislators who worked hard, read a lot, and adapted to procedures and rules to not only be heard but to be effective.

By the time a bill becomes law, it must pass numerous tests. For example, a simple bill I sponsored on sentencing criminals committing crimes while under the influence of drugs or alcohol was sent to the Governor, but only after it passed numerous Senate and House committees and was debated on the floor of each chamber.

As each legislator looks back to the session and follows those bills that become law, we reflect on the work that has been done and undone. Education, crime and economic development received top billing; but the greatest work may be those laws that unbind local elected officials and citizens from the regulations of past legislative session. For, as Tallahassee legislates, individual freedoms are sometimes chipped away.

COMMENTS FROM EVERETT KELLY, REPRESENTATIVE FOR DISTRICT 42

Another year has come and gone in the Florida Legislature. I would have to give it a big plus with the possible exception of our commitment to building more schools.

We have seen a dramatic drop in inmates going into our state prisons and this has freed up much needed revenue to do many additional things which are important to all of us as Floridians.

We committed all the money to complete the buy out of the last remaining muck farms on Lake Apopka, thereby halting the flow of polluting nutrient laden water into our chain. You will see our chain of lakes return to full recreational uses in 10 years.

In addition, we have finally put lottery dollars into meaningful enhancements to education with the creation of the Lottery Scholarship Program. We have placed \$70 million into this fund for students to go to college. We have continued our commitment to economic development which will provide good paying jobs for our students when they come out of college.

We also are proceeding in an orderly fashion on welfare reform, increased penalties for crimes and abuse of seniors and sexual predators.

This is the fourth part of an article submitted by Nelson Kraucak, M.D., of the Life Family Practice Center in Lady Lake.

Doctors and clinicians know acupuncture can provide at least short-term relief for a wide range of pains, either by releasing endorphins - - naturally produced, morphine-like substances - - or by inhibiting transmission of pain impulses through the nerves. Recent studies also show it to be effective in alleviating bronchial asthma, bronchitis and stroke-induced paralysis.

Johns Hopkins uses it as an adjunct to standard detoxification treatment for drug addiction. "I'm a healthy skeptic," says psychiatrist Mary McCaul. "But look, we don't have all the answers. Patients who choose acupuncture feel calmer. Even if it's a placebo effect, placebos are powerful things."

Relaxation techniques like meditation and biofeedback - - which teach patients to control heart rate, blood pressure, temperature and other involuntary functions through concentration - - have also given respectability to alternative medicine, and are routinely taught to patients and medical students.

There is little doubt that state of mind and physiological processes are closely linked. The connection between stress and ulcers and heart disease, for example, is well documented. Some scientists suggest the power of prayer and faith healing - - like some forms of meditation - - might also be physiological in that they may protect the body from the negative effects of the stress hormone norepinephrine.

Experience shows that relaxation techniques can help patients enormously. "Medicine is a three-legged stool," says Harvard's Benson. "One leg is pharmaceuticals, the other is surgery, and the third is what people can do for themselves and mind-body work is an essential part of that."

This concludes that portion of Dr. Kraucak's article devoted to acupuncture. Watch for next month's article which will provide information regarding homeopathy.

PISTOL RANGE LEAD A THREAT?

A concerned resident has reported that, when walking his dog by the Pistol Range, he heard the lead ammunition used could be affecting the ground and nearby lake.

He was told it could be closed by either the state or federal environmental control agency. Otherwise, it would have to be redesigned to protect persons who use the area.

He also heard there are very stiff fines levied for this sort of thing.

LETTER FROM AN OPPORTUNIST

Department of Agriculture
Washington, D.C.

Dear Sirs:

A friend of mine is receiving a check for \$1,000 from the government for not raising hogs. So, I want to go into the "not raising hogs" business next year.

What I want to know is, in your opinion, what is the best breed of hogs not to raise and what is the best kind of farm not to raise hogs on? I want to make sure that I approach this endeavor in keeping with all governmental policies. I would prefer not to raise razorbacks but, if that is not a good breed not to raise, then I will just as gladly not raise Yorkshires or Durocs.

As I see it, the hardest part of this program will be in keeping an accurate inventory of how many hogs I haven't raised.

My friend is very joyful about the future of the business. He has been raising hogs for 20 years or so; and the best he ever made on them was \$422 in 1968, until this year when he got your check for \$1,000 for not raising hogs.

If I got \$1,000 for not raising 50 hogs, will I get \$2,000 for not raising 100 hogs? I plan to operate on a small scale at first, holding myself down to about 4,000 hogs not to raise which will mean about \$80,000 for the first year.

Now, another thing. These hogs I will not raise will not eat 10,000 bushels of corn. I understand you also pay farmers not to raise corn or wheat. Will I qualify for payments for not raising wheat and corn not to feed the 4,000 hogs I am not going to raise?

I want to get started as soon as possible as this seems to be a good year not to raise hogs and grain.

Also, I am considering the "not milking cows" business, so send me any information on that, too.

In view of these circumstances, you understand I will be totally unemployed and plan to file for unemployment and food stamps.

Be assured you will have my vote in the coming election.

Patriotically yours,

P.S. Would you please notify me when you plan to distribute more free cheese.

A SUN TAN AT WHAT COST?

"Mad dogs and Englishmen go out in the noonday sun." This line from a Noel Coward play could very well be a reminder to exercise caution during outdoor activities for anyone living in Florida and particularly so as we approach the hottest months of the year.

Wise sun worshippers have learned how to handle the heat and the harmful ultra violet rays from the sun all year long.

- 1) They always use sun screen to protect their skin and avoid skin cancer - - whether at work or play.
- 2) They plan to do their chores before the highest temperatures of the day.
- 3) They caution their visitors about the hazards of prolonged exposure to the sun -- especially around water.
- 4) They know extreme heat is dehydrating and they drink plenty of water, Gatorade or similar products. (They also know alcoholic beverages do not help to replace lost body fluid.)
- 5) They know they can get a severe sunburn on a cloudy day, too.
- 6) They know to protect their eyes from the sun by wearing tinted glasses or sun visors.

Everyone can enjoy the benefits of the climate in our adopted Sunshine State if we take the time to protect ourselves from sunburn or heat stroke.

Ross & Dottie C. show off their home to Steven Field, Invincible Co-President

We made this home Invincible for years to come!

Ross & Dottie C. first called Invincible years ago to install an Energy-Saving, Lifetime Guaranteed JPS Hi-Tuff™ Roof System. This year, they called us to make their home a showplace. Now they have Invincible Energy-Saving Replacement Windows, ALCOA® Vinyl Siding and ALCOA® Soffit & Fascia as well! Now they have a home that will be Weatherproof, Energy-Efficient and Beautiful for years to come!

- LIFETIME GUARANTEED JPS HI-TUFF™ ROOFING •
- ENERGY-SAVING REPLACEMENT WINDOWS •
- ALCOA® VINYL SIDING •
- ALCOA® VINYL SOFFIT & FASCIA •
- PATIO DOORS • AND MORE! •

PISTOL RANGE LEAD A THREAT?

A concerned resident has reported that, when walking his dog by the Pistol Range, he heard the lead ammunition used could be affecting the ground and nearby lake.

He was told it could be closed by either the state or federal environmental control agency. Otherwise, it would have to be redesigned to protect persons who use the area.

He also heard there are very stiff fines levied for this sort of thing.

PROFILE OF NEW P.O.A. DIRECTOR

Paul Luge (pronounced Loo - gy) moved to 303 San Marino Drive in Village Rio Ponderosa in November 1995.

Originally from Medford, MA, Paul moved to south Florida in 1952. He has worked in every facet of construction from carpentering to supervising.

He enjoys playing the guitar and attends weekly classes. Since a bum knee required giving up golf, he has taken up pool exercise, dancing and bicycling.

Paul joined the P.O.A. because it offers representation of residents not available from any other organization.

PLEASE MAKE YOUR CHECK PAYABLE TO THE P.O.A.

SIMON SEZ

A shocking sight seen recently was a line of laundry strung from a palm tree to a home for all to see. Let us hope this was a one time occurrence.

The Management

IF WE LIVE BY OUR CONSCIENCE
AND ALWAYS ACT HONESTLY, WE
WILL DISTURB SOME PEOPLE AND
THEY ARE NOT LIKELY TO SPEAK
WELL OF US.

COMMENTS ARE HELPFUL

We appreciate your comments - - even if only to point out an error we've made. They help to keep us on our toes.

Of course, the compliments are welcome, too. They give us the impetus we need by times to keep our shoulder to the wheel, etc.

Keep 'em coming!

TIME AND TIME AGAIN.....

residents have been cautioned about golf cart safety by every possible means.

What more can be done to make them aware of the potential dangers such as have been listed below?

- 1) Allowing underage children to drive.
- 2) Strapping small children into the space for golf club bags.
- 3) Failing to signal turns.
- 4) Failing to stop at stop streets.
- 5) Believing a tragedy won't happen to you or yours.

**GIRL, 11, FALLS
OFF CART, SUES
GRANDMOTHER**

See the above headline about an accident in Tavares? It not only can happen, it has happened! And it could happen here.

Not only can someone near and dear to you be injured or killed, but such an incident could result in the loss of the privilege of using golf carts on our streets. Think of the residents who depend on their carts as their only transportation.

**For your benefit as well as for others,
won't you give serious consideration
to being a part of the solution or will
you continue to be the problem?**

SIMON SEZ

If you want to avoid heavy traffic, drive at the legal speed limit!
